Cedarville, MI 49719

Zoning Enforcement Office

Land Use / Zoning Permits

**NO CONSTRUCTION CAN BEGIN UNTIL
A LAND USE APPLICATION HAS BEEN APPROVED**

The land use / zoning application is the first step in the building process. The application determines whether the property is zoned for the intended use of the property, and if the proposed building dimensions will fit zoning regulations.

The following pages are all necessary to determine the above requirements.

Please complete EACH PAGE, sign date and return.

LMAS (Luce-Mackinac-Alger-Schoolcraft) Health Department Soil Erosion Requirements

LMAS must be notified if:

The project is within 500 feet of any lake, river, stream, lowlands and marshy areas, or any body of water.

The construction / excavation is more than 500 feet from water but will disturb one acre or more of soil.

For any well and / or septic tank permits.

Additionally:

Any building constructed on a lot abutting a lake, pond, stream or river shall be set back at least 100 feet from the high-water line.

Where the lot elevation is three feet or more above the high-water line, such building shall not be closer than 35 feet from such high-water line.

Michigan building code requires that new structures must be elevated such that the finished bottom floor (including basement) is a minimum of 1.0 foot above the 100 year flood elevation.

**CLARK TOWNSHIP SEWAGE DISPOSAL SYSTEM PERMIT APPLICATION
FOR SEWER HOOK-UP IN COMPLIANCE WITH
CLARK TOWNSHIP SEWER ORDINANCE**

FILL OUT THIS FORM COMPLETELY AND SUBMIT TO THE TREASURER'S OFFICE WITH THE APPROPRIATE FEE

**The following Site Plan Detail Requirements
MUST BE COMPLETED IN THEIR ENTIRETY
before any permits can be reviewed or issued.**

In most cases, the basic site plan will be sufficient; however, the Zoning Administer may request additional information which may be needed on the Medium or Detailed Site Plan.

I attest the Site Plan Requirements have been met.

Name: _____ Date: _____

14.6 SITE PLAN DETAIL REQUIREMENTS

The following information shall be provided with full or partial site plans, as indicated. All site plans shall be drawn at a scale of 1" = 100' or less.

| Required Site Plan Element | Basic Site Plan | Medium Site Plan | Detailed Site Plan |
|--|-----------------|------------------|--------------------|
| A. BASIC INFORMATION | | | |
| 1. Applicant's name, address, telephone number, and signature | • | • | • |
| 2. Property owner's name, address, telephone number, and signature | • | • | • |
| 3. Proof of property ownership and any deed restrictions | • | • | • |
| 4. A signed and notarized statement from the owner of the property that the applicant has the right to act as the owner's agent. | • | • | • |
| 5. The address or parcel number of the property, property lines, location and size | • | | |
| 6. The address and/or parcel number of the property, complete legal description and dimensions of the property, setback lines, monument locations, gross and net acreage and frontage. | | • | • |
| 7. A vicinity map showing the area and road network surrounding the property. | | • | • |
| 8. Name, address, and phone number of the preparer of the site plan. | • | • | • |
| 9. Project title or name of the proposed development. | • | • | • |
| 10. Statement of proposed use of land, project completion schedule, and any proposed development phasing. | • | • | • |
| 11. Land uses and zoning classification on the subject parcel and adjoining parcels. | | | • |
| 12. Seal of the registered engineer, architect, or surveyor as well as their name, address and telephone number. | • | • | • |

| Required Site Plan Element | Basic Site Plan | Medium Site Plan | Detailed Site Plan |
|--|-----------------|------------------|--------------------|
| B. SITE PLAN INFORMATION | | | |
| 1. North arrow, scale, and date of original submittal and last revision. | • | • | • |
| 2. An elevation certificate may be required when construction is proposed near a floodplain. | • | • | • |
| 3. Boundary dimensions of natural features. | | • | • |
| 4. Proposed alterations to topography and other natural features. | | • | • |
| 5. Existing topographic elevations at two (2) foot intervals, except shown at five (5) foot intervals where slopes exceed 18% | * | * | * |
| 6. The location and type of existing soils on the site and any certifications of borings. | * | * | * |
| 7. Soil erosion and sediment control measures as required by the Luce-Mackinac-Alger-Schoolcraft Health Department, or subsequent agency having jurisdiction | • | • | • |
| 8. The location, height, and square footage of existing and proposed main and accessory buildings, and other existing structures. | • | • | • |
| 9. Location and specifications for any existing or proposed (above or below ground) storage facilities for any chemicals, salts, flammable materials, or hazardous materials. Include any containment structures or clear zones required by county, state of federal government authorities. | • | • | • |
| 10. Proposed finish floor and grade line elevations of any structures. Also required for all habitable construction within the floodplain on Basic and Medium site plans. | * | * | * |
| 11. Residential density schedule showing number of dwellings or housing units pe acre, unit type(s), and number of each unit type. | | | • |
| 12. Existing and proposed driveways, including parking areas | • | • | • |
| 13. Neighboring driveways and other vehicular circulation features adjacent to the site. | | • | • |
| 14. Location, size and number of parking spaces in the on-site parking areas. | | • | • |
| 15. Identification and dimensions of service lanes and service parking, snow storage areas, loading and unloading, and docks. | | • | • |

| Required Site Plan Element | Basic Site Plan | Medium Site Plan | Detailed Site Plan |
|--|-----------------|------------------|--------------------|
| B. SITE PLAN INFORMATION | | | |
| 16. Proposed roads, access easements, sidewalks, bicycle paths, and other vehicular and pedestrian circulation features within and adjacent to the site. | | | • |
| 17. Location of and dimensions of curb cuts, acceleration, deceleration and passing lanes. | | • | • |
| 18. Location of neighboring structures that are close to the parcel line or pertinent to the proposal. | | • | • |
| 19. Location of water well and on-site sewage disposal systems. | • | • | • |
| 20. Location, specifications and access to a water supply in the event of a fire emergency. | | * | • |
| 21. Location of water supply lines and/or wells, and the location and design of storm sewers, retention or detention ponds, waste water lines, clean out locations, connection points and treatment systems, including septic systems if applicable. | | • | • |
| 22. Location of all other utilities on the site including but not limited to natural gas, electric, cable TV, telephone and steam | | • | • |
| 23. Location, size, and specifications of all signs, advertising features, including cross sections | | • | • |
| 24. Exterior lighting locations with area of illumination illustrated as well as the type of fixtures and shielding to be used. | | • | • |
| 25. Proposed location of any open spaces, landscaping, and buffering features such as buffer areas, vegetation belts, fences, walls, trash receptacle screening, and other screening features with cross sections shown. | | • | • |
| 26. The proposed sizes of landscape materials not previously existing. All vegetation to be retained on site must also be indicated, as well as typical size by general location or range of sizes as appropriate. | | | • |
| 27. Statements regarding the project impact on existing infrastructure (including traffic capacity, schools, existing utilities, and to the natural environment on and adjacent to the site). | | | • |
| 28. Changes or modifications required for any applicable regulatory agencies' approvals. | | | • |

* **NOTE:** More or less information may be required if determined by the Review Authority.

SITE PLAN: Make a scale drawing below in ink showing actual lines, angles and dimensions of all lots to be built upon and used, and the exact size and location on the lot of all existing and proposed buildings, signs, and other structures, uses, parking areas, streets and driveways, together with specifications. (For minor alterations, the Building Inspector may waive portions of these requirements not necessary to determine compliance of the proposed project with applicable ordinances and regulations.)

A large grid for drawing a site plan. The grid is approximately 30 units wide and 25 units high, providing a space for the applicant to draw the site plan in ink.

NOTICE TO APPLICANT

The structure of this Land Use Permit constitutes approval by Clark Township for the applicant to undertake construction of the **subject structure only**. Applicant remains obligated to fully comply with all applicable Federal, State, and Local laws and regulations (DNR, Army Corps of Engineers) pertaining to all aspects of applicant's development of and upon the subject property.

The undersigned hereby agrees to abide by all Zoning, Building, and other Township ordinances and regulations, and to comply with all grade, drainage, and other requirements requested by the Zoning Enforcement Officer.

Date: _____ Applicant's Signature: _____

***** Please provide three copies to the Building Inspector**
